

Quality Custom Cabinetry

www.c-storesystems.com

We take great pride in providing our customers with custom cabinetry. Our manufacturers follow the Architectural Woodwork Institute guidelines for premium cabinet construction. Only quality materials and fabrication methods are used in production for our customer's cabinetry needs.

Our speciality is custom designs for each and every project specification. This includes working with durable laminate and solid surface manufacturers, including Silestone. Our field install technicians and designers are well versed in strength and durability of the materials we specify.

Specifications and options include:

- Commercial-grade hardware including high strength wrap-around knuckle hinges and high density, industrial grade melamine
- Superior engineering and construction to withstand heavy retail traffic
- Close following of state ADA requirements to accommodate all
- Wide variety of custom options including radius countertops and soda walls

For more information, please review our website or call and talk to one of our representatives about how we can work together to develop your project.

Call (800) 966-4547 toll-free or email us at info@c-storesystems.com.
